OCR GCSE D&T Product Design

Get started – towards successful delivery of the new specification (first teaching from September 2009)

Aimed at

All new and experienced teachers, Heads of Department, and Centre Assessors.

Overview

This **full day course** is designed to give you a sound understanding of the new OCR specification. The sessions will include an introduction to the structure and content of the new specification in preparation for delivery. It will:

- Consider the assessment of candidates with the review of sample assessment materials
- Discuss the presentation of candidate portfolios
- Explain the administrative procedures for the assessment of coursework and/or testing
- Enable you to network and share ideas for best practice
- Offer advice on preparing candidates for the external assessment.

Please read the subject specification before attending the course.

Note: although we endeavour to distinguish between the Get ready and Get started events, there will be some similarity to the half day Get ready sessions that have already taken place. However, this full day course will look at the new specification in more depth, with emphasis on first delivery. There may be some similarity in the materials between the Get ready/Get started courses but the latter will have approved, rather than draft, documentation.

Detail

Date	Location	Course Code
Fri 16 Jan 09	Birmingham	ODTB101
Tues 3 Feb 09	London	ODTB102
Mon 9 Feb 09	Leicester	ODTB103
Fri 27 Feb 09	Manchester	ODTB104
